

# Whitespace

THE MORDES COLLECTION

Whitespace is the private contemporary art exhibition space and loft-style home of Elayne and Marvin (obm) Mordes located in West Palm Beach, Florida. The Mordes' have been collecting Contemporary Art for over 30 years and have a unique European approach to their collection. One of the strengths of the collection is the consistency of vision that it exhibits and, in addition, has also been characterized by its enthusiasm and focus. Whitespace space has partial permanent programming and a changing project space entitled "Whitebox", which has curated exhibitions which meet a high level of competency, vision and creativity. This is the only venue of this type in this area. We consider it an honor to establish a growing audience of Contemporary Art "Lovers"!!

The mission of Whitespace is to expand and introduce the viewer to current trends in contemporary art by creating international exhibitions by major mid-career contemporary artists using various mediums: including painting, sculpture, photography, drawing and video.

Whitespace is open from November through April of each year and has a growing audience that access the space through private tours, schools, fundraising events, and public viewing days. Whitespace is a private Museum space and does not receive any funding from the state or government. All costs associated with Whitespace are the responsibility of the owner Elayne Mordes.

The goal of Whitespace is to fund a granting program for the Arts and Art Education in Palm Beach County through Community Foundation. To date, we have granted scholarships to graduating seniors from Dreyfoos School of the Arts and supported many local institutions and charitable foundations.

Whitespace also has a premier shop - Col-lect! - that supports and recognizes the creative design talents of international artists, architects, design personalities and a unique ongoing project featuring International Jewelry artists exhibiting unique pieces of body sculpture using repurposed, recycled and creative materials to sculpt body jewelry.
